1987
Heart rate and blood lactate response to short intermittent work at race pace in highly trained swimmers  
L.Gullstrand and S.Lawrence  
Australian Journal of Science and Medicine in Sport, March (1987)

1990
Streamlining Lactates  
R.C.L.Howat and M.W.Robson  
Swimming Technique, February (1990)

Training with times established from the modified two speed test  
R.C.L.Howat and M.W.Robson  
Swimming Times, May (1990)

1991
Altitude training – is it necessary?   
M.W.Robson  
Swimming Times, December (1991)

1992
Developing swimmers aerobic capacities  
R.C.L.Howat and M.W.Robson  
Swimming Technique, February (1992)

Heartache or Heartbreak  
R.C.L.Howat and M.W.Robson  
Swimming Times, June (1992)

1994
Blood sampling during continuous running and 30-second intervals on a treadmill  
L.Gullstrand, B.Sjodin and J.Svedenhag  

Blood lactate responses to incremental exercise in young male athletes  
A.Baxter-Jones and P.Helms  
Biochemistry of Exercise International Conference Abstract, July (1994)

Maximal aerobic power of Hong Kong elite lightweight rowers  

1995
Basic principles of race pace training  
R.C.L.Howat and M.W.Robson  
Swimming Times, July (1995)

1996
Physiological responses to short-duration high-intensity intermittent rowing  
L.Gullstrand,  

A study of physiological responses during match play in Indian national kabaddi players  
V.Khanna, P.Majumdar, V.Malik, T.Vrinda and M.Mandal,  

1997
A 5-minute running field test as a measurement of maximal aerobic velocity  
P. Berthon et al,  
1998
Training effects of short and long bouts of brisk walking in sedentary women
M.H. Murphy and A.E. Hardman,

Oxygen uptake during moderate intensity running: response following a single bout of interval training.
D.V.B. James and J.H. Doust,

1999
Intensity of exercise during road race Pro-cycling competition
B. Fernandez-Garcia, J. Perez-Landaluce, M. Rodriguez-Alonso and N. Terrados,

A 1-day maximal lactate steady-state assessment protocol for trained runners
A.S. Palmer, J.A. Potteiger, K.L. Nau and R.J. Tong,
Medicine and Science in Sports and Exercise, 30, 1336-1341 (1999)

2000
Training in hypoxia: Modulation of metabolic and cardiovascular risk factors in men
D.M. Bailey, B. Davies and J. Baker,

Left ventricular contractility and function at peak aerobic and anaerobic exercises
M. Sagiv, D. Bwen-Sira, E. Goldhammer and M. Soudry,

Human erythrocyte and plasma amino acid concentrations during exercise
D.P.M. Maclaren, A.M. Nevill, C.D. Thake, I.T. Campbell, E. Cheetham, M.A. Keegan, C. Lane and N.B. Roberts,

2001
Inspiratory muscle training improves rowing performance
S. Volianitis, A.K. McConnell, Y. Koutedakis, L. McNaughton, K. Backx and D.A. Jones,
Medicine and Science in Sports and Exercise, 33, 803-809 (2001)

Effect of creatinine loading on long-term sprint exercise performance and metabolism
D. Preen, B. Dawson, C. Goodman, S. Lawrence, J. Beilby and S. Ching,

The effect of three different warm-up intensities on kayak ergometer performance
D. Bishop, D. Bonetti and B. Dawson,
Medicine and Science in Sports and Exercise, 33, 1026-1032 (2001)

Comparison of the Lactate Pro and Analox GM7 Lactate Analysers

2002
Diagnosing external iliac endofibrosis by postexercise ankle to arm index in cyclists
B. Fernandez-Garcia et al,

Assessment of the reliability and validity of the Lactate Pro lactate analyser
S.G. Psycharakis, C.B. Cooke, J.O’Hara and A. Siems,
2002
Handgrip contribution to lactate production and leg power during high-intensity exercise
J. Baker, E. Brown, G. Hill, G. Phillips, R. Williams and B. Davies,

The influence of pacing strategy in VO2 and supramaximal kayak performance
D. Bishop, D. Bonetti and B. Dawson,

Caffeine is ergogenic after supplementation of oral creatine monohydrate
M. Docherty, P.M. Smith, R.C.R. Davidson and M.G. Hughes,

2003
Skeletal muscle glucose uptake response to exercise in trained and untrained men
T. Fujimoto et al.,

Effects of sodium bicarbonate ingestion on prolonged intermittent exercise
M. Price, P. Moss and S. Rance,

Assessment of the reliability and validity of the Lactate Pro lactate analyser
S.G. Psyrcharakis, C.B. Cooke, J.O’Hara and A. Siems,

Lactate and ventilatory thresholds reflect the training status of professional soccer players re where maximum aerobic power is unchanged
A.M. Edwards, N. Clark and A.M. Macfayden,

2004
Effects of acute hypoxia on the determination of anaerobic threshold using the heart rate – work rate relationships during incremental exercise tests.
O. Ozcelik and H. Kelestimur,

2005
Metabolic implications of high intensity cycle ergometry exercise for blood lactate accumulation and clearance
J. Baker, N. Thomas and B. Davies,
J. Exercise Physiology Online, Vol.8, No.3 (June 2005)

Effects of ribose supplementation prior to and during intense exercise on anaerobic capacity and metabolic markers
C. Kerksick et al,

Optimised and non-optimised high intensity cycle ergometry and running ability in international rugby union players.
N.E. Thomas and J.S. Baker,
J. Exercise Physiology Online, 8(3), 26-35 (2005)

Exercise in the fasted state facilitates fibre type-specific intramyocellular lipid breakdown and stimulates glycogen resynthesis in humans.
K. DeBock et al,
2005
Effects of ribose supplementation prior to and during intensive exercise on anaerobic capacity and metabolic markers.
C. Kerksick et al,

2006
Chocolate milk as a post-exercise recovery aid.
J.R. Karp et al,
